ABOUT US

Haseeb Rasoul Engineering Consultants was established in 1992. We offer our client's a complete design and build package, covering a full start-to-finish turnkey solution. In 2011, Rasoul Interior Decoration was incepted to supplement our engineering team.

In addition to a dedicated team of managers, Haseeb Rasoul Engineering Consultants and Rasoul Interior Decoration are run by qualified architects, interior designers and engineers, striving to satisfy the client's needs from conceptual design to the last finishing detail.

With the design office set up in place, turnkey solutions are offered to specific market sectors, corporate interiors, commercial and retail outlets, covering offices, private and retail banks, financial institutions, shops, restaurants, coffee shops, specialized outlets, etc.

The turnkey solution is the favourite ingredient with all our clients as we offer all services under one umbrella to design, start, manage, complete and handover the job on time. Our service include and are not limited to conceptual design, specifications, local authorities submittals and paperwork, detailed MEP and architectural drawings and of course site execution and project management.

MISSION

It is our Mission to plan and create spaces for our clients by using sparing resources while maintaining high level of design quality. To create spaces which are not only beautiful but will also meet our client's requirement for day-to-day living and working.
